Together**

Raise Productivity to the Next Level with Mobile Printers

Mobile printers play an integral part in the workflow of many industries, especially where quick and accurate printing on demand is required at various locations. Whether printing receipts for meter readings, e-citations, mPOS, or for direct store delivery, or even labels for mark down, shipping and receiving, mobile printers can increase efficiency for any printing on demand.

To assess the need for a mobile printing solution, here are some points to consider:

- How often are labels applied within arm's length?
- How often do inaccurate or damaged labels cause interruption to your work?
- Can on-the-go printing reduce the time traveling back-and-forth to a centrally-located stationary printer?

Points to Consider Before Getting Mobile Printers

Before investing in mobile printers, be sure to look at these three points:

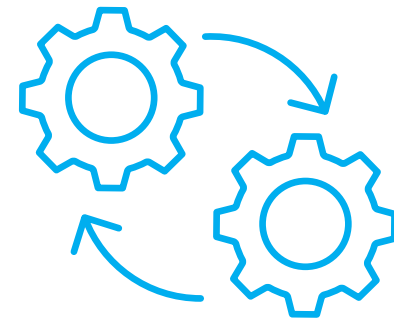

Durability

Printers must be able to withstand accidental falls and drops, resist dust and water for both indoor and outdoor applications.

Ease of Use

A printer that is easy to set up and use will accelerate workflow and boost productivity, thus bringing more value out of your operation.

Compatibility

Hassle-free integration or migration is vital when installing or replacing existing devices.

Why TSC Printronix AUTO ID Mobile Printers?

Rugged Design for Enduring Harsh Environments

Our IP54-certified mobile printers are not only water-resistant and dust-resistant, but have also endured tough drop and vibration tests, including 800 drops in a tumble test, 2.1 meters drop test, and met the MIL-STD-810 standard for the durability to stand strong even in harsh environments.

IP54 Certified

800 DROPS In a Tumble Test

2.1 M Drop Test

MIL-STD-810 Standard

Easy to Set Up and Use

- ❶ Lightweight and compact to be carried around all-day
- ❷ Easy-to-read LCD/LED and/or large function buttons
- ❸ Reliable and secured dual-band Wi-Fi with fast roaming
- ❹ Easy media loading and support media roll up to 67mm (2.64") OD
- ❺ Easy connectivity via MFi Bluetooth® with NFC tap-to-pair
- ❻ Versatile accessories to give support and increase the efficiency of operation

Compatibility Matters

Being able to seamlessly integrate with your system is also a determining factor when purchasing mobile printers. With our software, SDK and professional technical support, our mobile printer's compatibility with your system will be enhanced through quicker integration, efficient development, faster deployment, and increased interoperability.

- OPOS drivers for POS application
- Compatible with CPCL, ESC-POS and major printer languages
- Software Development Kit (SDK) for developer to build a custom app

Mobile Printer Family

Depending on your requirements, we offer a variety of mobile printers that cater to your needs.

Alpha-2R

The Alpha-2R is a lightweight printer capable of working with any mobile printing application where you need access to quick, simple receipts or tickets.

TDM Series

The TDM Series features a rugged palm-sized design for easy, on-the-go printing for up to 42 hours on a single battery charge.

Alpha-3R

The Alpha-3R is a lightweight printer capable of printing labels on demand. It is built for durability and can withstand falls of up to 5 feet and keeps printing.

Alpha-30R

The Alpha-30R mobile printer is user-friendly and drop-resistant. It enhances customer service, boosts productivity and improves shopper experience in retail stores. Mobile printing operations can be carried out much faster and with more accuracy.

Alpha-30L/40L

The Alpha-30L and Alpha-40L mobile printers propel you into the next generation of smart, enhanced technology solutions for industrial-grade label printing applications.

Alpha-40L RFID

The Alpha-40L RFID features a user-friendly, heavy-duty and drop-resistant design, enhancing workers' mobility in challenging environments. The rugged design is ideal for direct store delivery and industrial field service.

Product Specifications

We offer a variety of products, ranging from 2-inches to 4-inches, different print widths, different levels of durability, different media types, and many other specifications to suit your printing needs.

Success Stories

e-Commerce Warehouse

Alpha Series Mobile Printers Facilitate Warehouse Operations at Full Throttle

Overview

One of the leaders of Taiwan's e-commerce industry is expanding its warehouse and logistic networks with additional label printers to support operational surges with efficiency. Given its current WMS (Warehouse Management System) system bundle, the company could not easily migrate to other branded devices.

Solution

TSC Printronix Auto ID's engineers studied, verified, and customized the firmware to enable Alpha-40L and Alpha-4L mobile printers to understand the current WMS system language.

User Benefits

- Overcome system constraints
- Resolve printer supply shortage
- Easy for operators and IT staff to use and manage

Healthcare

Alpha-3R Mobile Printers Accelerate Specimen Collection and Management

Overview

Nurses have to deal with a large number of specimens when rotating through the ward, and mislabeling specimens could lead to medical disputes. The hospital needs to print out patient information and label each specimen immediately after collecting the samples from patients to prevent mislabeling.

Solution

The Alpha-3R mobile printers are mounted on medical carts and are connected to HIS (Hospital Information System) to print out required information on the spot.

User Benefits

- Overcome system constraints
- Resolve printer supply shortage
- Easy for operators and IT staff to use and manage
